and physically qualified students are eagerly expecting such a permission. The subjects of His Highness the Maharaja entertain brotherly feelings towards the British Indian subjects and there is no reason why our students should not be admitted to the said examinations. This question may be taken up for consideration.

Reply of Government—A representation has already been made.

SUBJECT No. 333.

Curtailment of holidays.

Mr. V. Raghavachar, Mysore taluk.

Summary of discussion.—The holidays now allowed for the civil courts and other offices are somewhat long and unnecessary. They require some modification, and not only curtailment. For civil courts it is enough if the vacation is given from the beginning of April to the first week of May, included. In May we generally get rains and the hot weather is not felt. So five weeks are enough instead of six weeks for the summer vacation. The one week thus saved may be added on to the Christmas holidays. Again some miscellaneous holidays, such as *Tikacharya-rapunyadivasa*, etc., may be cut out. The work of the Representative Assembly may be commenced on *Sapthami* or *Ashtami*.

Some members opposed the last proposal as tending to serious inconvenience to them.

Mr. C. Sreenivasa Rao.—The existing holidays should not be curtailed.

Mr. M. Venkatakrishniah.—At least three more days are required for the sessions of the Representative Assembly to get through the work satisfactorily. The curtailment of holidays is very necessary, specially in respect to schools.

Reply of Government.—Noted.
